SAVINGS & SOLUTIONS YOU CAN RELY ON

IT doesn't need to be complicated. Nor should it be overwhelming. We believe in providing our schools with clear, transparent advice always. Whether it's the latest recommendations in EdTech or expert support, our 24/7 team are here to help you succeed and thrive.

WHO ARE WE?

Since 2000 we've worked with Schools & MATs across the UK, providing end to end IT Solutions. Based in the East Midlands, we wholly own two data centres in Nottingham and Derby...that means we offer exceptional performance and our goal is always to maximise your IT budgets.

WE KNOW SCHOOLS

Our team are made up of former teachers, IT experts and business leaders. Quite a few of us are parents too so we really understand the end users! Embedding computing into the curriculum has never been more important, we believe in preparing pupils with strong skillsets for the modern world and using tech to enable them. We think tech can be used to allow teachers to feel empowered and remove needless tasks and admin which takes up too much time, so they can focus on what really matters,

- ✓ 147+ Schools Supported
- ✓ 24/7/365 Support
- ✓ EdTech Specialists
- ✓ DfE Frameworks

SO WHAT DO WE DO?

We won't bore you with long sales pitches, because that cup of tea you're drinking isn't endless! Instead we've put together a brief overview; how you can benefit and save money (because those budgets never stretch far enough!)

SUPPORT

How is your IT support working for you? Do you feel like you're getting value for money? Can you ask lots of questions and get clear answers which don't leave you feeling overwhelmed? Are you getting the latest advice and recommendations without prompting?

CONSULTANCY

Whether it's knowing there's always someone there to support your school or MAT in an emergency, or support your current on-site technicians; our consultancy solutions are readily available as and when you need it. From supporting your existing IT team, to providing ad hoc advice when you need it; We're here to help to ensure all your needs are met, and you'll be able to maximise your IT budget. We'll work with you to create DfE approved frameworks over 3 & 6 years plans.

from
£600
per academic year

REMOTE SUPPORT

Our remote support packages can transform the way you operate, and ensure that your staff & teachers are always well supported no matter where they are. Our experts are on hand 24/7/365 because we know that your IT always needs to be on and available. You'll get full support from our award winning service desk, managed antivirus & security and full remote access. We believe in empowering users to achieve more.

from
£1500
per academic year

FULLY MANAGED

We can provide on site technicians, expert guidance and award winning support every day for your school or trust. Thanks to our wholly owned data centres, we believe in centralising services to create a seamless experience for all our users and work with our schools to build long term plans in accordance to DfE frameworks. With over 20 years experience you're in safe hands.

from
£4000
per academic year

MORE STUFF WE DO

As an end-to-end IT solutions provider, we do quite a bit. Here's some more stuff we do which can really help the way you align your network and connections...all in the aim of making life easier!

P.S How's the tea? Time to dip a biscuit?

AIT CLOUD

Our centralised approach to IT and the AIT cloud, unifies your IT solutions, all the way from how you access the network down to the devices you use to access the network with.

Why you'll love it: There's a lot of tech stuff we'll bore you with later, but moving to AIT Cloud can save your school lots of money, keep things more secure and meet new DfE guidelines.

CONNECTIVITY

From Superfast Broadband to VoIP, we work in line with Cyber Essentials and the National Computing Framework to ensure safeguarding and filtering are always a top priority. Our VoIP services even come with student helplines!

Why you'll love it: Telephony services are available from £17.99 a month (no catches or gimmicks just good value). For broadband, we are part of the Faster Britain network, and our CCTV & Door Access is state of the art...fancy right!?

SECURITY

Did you know 94% of schools reported a phishing attack during 2021? We take security seriously. From Managed Backups & Disaster Recovery to Phishing simulations, our tech experts will keep you safe.

Why you'll love it: Peace of mind we think is invaluable! You'll be safe in the knowledge your school is always protected, and with our super cool knowledge base, staff are always kept up to date and fully aware,

EDTECH & DEVICES

Lets face it, tech is always changing and there is always something new on the market! We have our own custom PCs and a specialist in house EdTech team who'll help advise on long term strategies in line with DfE frameworks so you're fully on track

Why you'll love it: Unbeatable prices with custom PCs from just £290! We'll work with you to consult on how to transform IT in your school and build long term plans. Our IT audits will keep you on the right path and give you a full overview of where you're at.

WHAT ELSE?

Right, we are pretty sure you're getting the picture now of what we can do for you. We've popped together a handy overview checklist to see if you're getting the most from your IT. We're here to help, so if it's advice you're looking for or another cup of tea - just give us a call.

Our IT Support:

- Has their own data centres
- 24/7/365 Helpdesk and Support with a training to teachers and accessible knowledge base
- Part of the Faster Britain Network, providing superfast broadband, filtering & safeguarding on and offsite
- Works on DfE approved frameworks creating 3 & 5 year EdTech plans alongside the National Computing Framework
- Has an agile team with a personal approach, but large enough infrastructure to maximise IT budgets
- Create unified and centralised solutions moving to Cloud technology
- Reduce Carbon by 2025
- Our current schools will speak to you direct about how we work with them
- Sends you tea...but really it's more than that - Advanced IT Services believe in supporting you, being at the end of the phone and helping you & your school succeed through IT
